

LED VG2 Series

Best in class 167 Lm/W efficacy

With a 167 Lm/W efficacy, On Time Lighting's VG2 series of High Bay and Low Bay fixtures is an excellent choice when the application calls for a standard, economical, energy efficient design.

Features

- **Computer Designed Specular Reflector** - Precise light focusing and distribution
- **Multiple Mounting Options** - Flexibility for row or individual installation - stem/pendant, cable, or chain
- **Fully Programmable** - From 10,000LM to 30,000LM, DC dimmable with motion sensors and daylight sensing.
- **Quick Payback** - Due to energy savings, payback can be in as little as 10 months. It also has low LED thermals and exceptional heat-sinking capabilities.
- **Extremely Efficient Replacements** - Up to 60% less energy usage with up to 30% more illumination.
- **Low Total Harmonic Distortion (THD)** - Decreased interference with infrared remote controlled electronics and other electronic appliances.

Application

- Warehouse
- Industrial
- Manufacturing facilities
- Factories

Certifications

Made in the USA
